Director, Emergency Medical Services
Forest Fire Warden
Director, Emergency Management

For Information purposes,

The Goodwin's Mills fire department is normally staffed with 2 FF's/EMT's 24 hours a day and 7 days a week. The fire chief works normal business hours. With only 2 – 3 staff in the station at any given time, when an emergency is received the station becomes empty for an hour or so and depending on the emergency it could be several hours. Along with answering emergencies the fire department staff participates in other community based events. Some examples of recent events are the installation of a new dry hydrant, assisting with the Parks and Rec to build a community ice rink, participating in the Lyman tree lighting. In the future we will resume fire prevention activities within our communities. These are just some of the reason the staff may not be at the fire station. Please, if you have an emergency call 911, this is a guarantee that someone will answer your call and help will be sent to you. If you need us for non-emergency information and cannot reach us at the fire station please call 207-499-2244 and speak with our Communication Dispatchers who know how to get a hold of us while we are out.

Respectfully Submitted,

Mathiew J. Duross
Fire Chief
